

# Speedcast – Cognitieve Bias

Seizoen 5

Episode 10 - 2025

## SAMENVATTING

Naar schatting is er in de V.S. in bijna 6% van alle spoedgevallenbezoeken sprake van een misdiagnose. Volgens diezelfde schatting lijdt dit in 1 op 3 gevallen tot schade, en in 1 op de 30 misdiagnoses tot de dood. In 90% van de gevallen van misdiagnose speelt een fout in de klinische beoordeling of besluitvorming een rol. We doen er dus goed aan om onze eigen klinische besluitvorming onder de loep te nemen, en waar mogelijk beschermingen in te bouwen tegen gekende valkuilen.
